MONTEREY COUNTY  
2016 AUG 25 PM 4:20

**Scenic beauty is imperative to the economic health of the Monterey Peninsula.** Beautiful landscapes, pristine beaches and stunning views are key economic drivers that contribute to a vibrant and thriving local economy.

**Measure E protects water quality and preserves natural areas for the next generation.**

We owe it to our children and grandchildren to leave them with the same beautiful environment that we inherited. Measure E supports outdoor educational programs to keep our children happy and healthy.

**Every community deserves to have access to parklands and open space with no entrance fees.** MPRPD is committed to expanding access to existing parks and creating new parks for people throughout our region.

**Strict accountability continues MPRPD's tradition of fiscal responsibility.**

Measure E includes the necessary accountability to ensure that every penny supports parks and open space. An independent Citizens Oversight Committee will continue to strictly monitor the use of these funds. To read the Committee's detailed reports to local taxpayers, visit <http://tinyurl.com/CitizensOversight>.

**Measure E protects our parks without increasing your taxes!**

Measure E is a great deal. It continues vital park funding at the current rate, less than \$2.50 per month for world-famous views and open space right in our backyard.

Let's protect our region's most critical natural resources. Join us in voting Yes on E.
